RE: Letter of Reference

To Whom It May Concern:

It has been our pleasure to work with Jannica for the past 3 years.

Jannica's focus on details in assisting us develop our website appearance has been very effective in receiving numerous compliments regarding the professionalism of our website. We wanted something that would stand out in the crowd so to speak, but we did not have the experience in which to come up with any kind of plan. This is exactly where Jannica stepped up to the plate and designed a very professional and functional as well as easy to navigate website.

Jannica has been very easy to work with in terms of getting information to her and updated on the site. By simply forwarding the information via email, she has been extremely proficient.

Without a doubt, our Website has helped compliment our devotion to Customer Service speaking directly to getting our name and services out to the Cyber Space community.

I would highly recommend Jannica and her services to anyone interested in establishing a powerful, professional and efficient website.

If you have any questions, please contact me.

Thank you!!!
